

MASS BALANCE BOOKKEEPING

Transform your mass balance operations from error-prone spreadsheets to enterprise-grade automation.

www.finboot.com/mass-balance

Excel spreadsheets cause bottlenecks, risks, and limit scalability. MARCO Track & Trace automates mass balance workflows, from supplier data to sustainability declarations, delivering audit-ready traceability and regulatory confidence.

Automated Bookkeeping

- ✓ Auditable mass balance with complete data lineage
- ✓ Eliminate human error with AI automation
- ✓ Flexible setup for conversion rates & losses
- ✓ Batch-level inventory tracking
- ✓ Supports FIFO, LIFO & Direct allocation

Sustainability Declaration Management

- ✓ Guarantee regulatory alignment (**RED III, ESPR, PPWR** & more)
- ✓ Automated reporting & certificate management
- ✓ Compatible with **ISCC+, ISCC EU, REDcert, RSPO & RFS** & more
- ✓ Streamlined multi-certification declarations

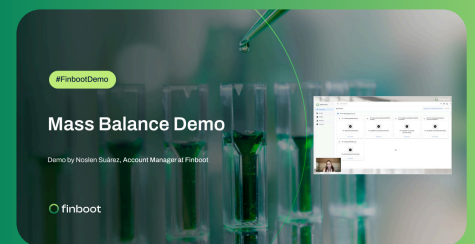

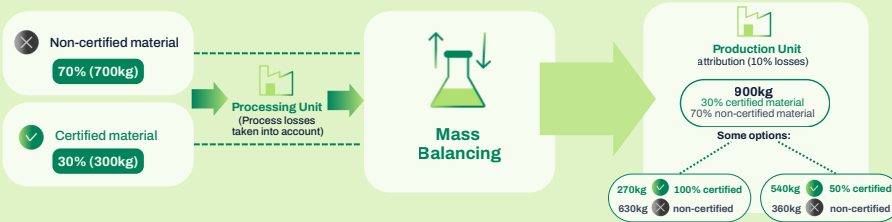

User Roles & Permissions

- ✓ Proactive alerts for operations & compliance
- ✓ Multi-language interface for global teams
- ✓ Secure Single Sign-On integration
- ✓ Role-based permissions for data security

System Integration

- ✓ Comprehensive APIs for system connectivity
- ✓ Blockchain-backed immutable audit trails
- ✓ SOC2 Type II enterprise security
- ✓ Native ERP integration (SAP, Microsoft...)
- ✓ No-code implementation with guided tools
